SUPPLEMENT

The following are excerpts from directives issued by KKE politburo during September:

1. Finger Prints: Since the last order that students have to possess credentials showing their political affiliations, they now have been ordered to have their fingerprints taken. Not even Metaxas did such a thing. Not only the students involved but the entire thinking world must be persuaded to show their indignation. Demonstrations must be organized by the Communist Organization Athens (KOA) and a representative group of students must make protests to the Government for this new fascist measure.
2. Questions of Organization: Inasmuch as terrorism will abate for the duration of the present truce and until the termination of the time limit of the amnesty, the KOA must act energetically in insuring the success of everything their organization has undertaken. This is a singular opportunity. The Politburo expects monthly reports of activity from the KOA to commence again with the first report due by 10 October.
3. Andartes who are Surrendering to the Authorities: The Rightist press has been printing articles stating that the Andartes are giving up in large numbers. This is a filthy lie, the purpose of which is to create confusion in the ranks of the Andartes and Party members. Consequently such reports should be scorned and only those issued by the Party should be relied on. The Democratic Army shall not lay down its arms because its members prefer death in the line of duty rather than merciless assassination at the hands of the Monarcho-fascists.

4. Contribution of the National Mutual Aid Society: The previous directives of the Politburo have been ratified again and the KOA has been requested to collect 200 million drachmae instead of 100 million which was the previous goal.
5. The selling of arms: It has come to the attention of the Politburo that members of the Party have been storing up arms without authority. They have been approaching sellers and saying that they are acting on behalf of the Party. They are thus violating the Conspiratorial regulations of the Party. It is only right that each member should have his personal weapons, but he has no right to store up arms without authority. Only KOA Security members and Achide Security members are responsible for the storing up of arms. And others are not permitted to become involved in this matter, except only when there is need of money or transportation; in which case the security members should approach the Secretary of the Achide or even the Secretary of the KOA.
6. Exiles: Exiles returning from banishment should not be received into Communist Organizations until their stand during the period of banishment has been checked. The "fractions" of the Parties in the Cooperatives will submit reports to the City Committee of KOA. Meanwhile the released exiles shall become members of extra-Party Organizations and shall submit petitions to the Government demanding the release of all the exiles. Since the Ministry of Public Order has decided to release the sick who are in exile, their relatives should send physicians' certificates to the doctors serving in the exiles' camps.
7. National Guard: The Government is proposing to form a military organization which will include CHites, members of MAY, former members of the Security Battalions, and other traitors and collaborators with the enemy. Two classes have been called and will be incorporated in the National Guard; the purpose is to give it a democratic coloring. The people have previous experience with organizations of this kind, and so the Democratic citizens must protest against the establishment of this corps and must have no part in it.
8. Trades Unions: In the near future a combined meeting will be called of the trades unions and of the Party "fractions" within their Administrative Councils. It is imperative that all the athletic associations come under the control of KKE.
9. Secretary of KOA: The Politburo of KKE announced that Spyros Kalodikis (Second Secretary of KOA) will replace Nikolaos Danielides or Panos during the illness of the latter. The members of the City Committee will give absolute obedience to the instructions of Kalodikis during the absence of Danielides.
10. Finance: Those released from exile must be reminded that they have to resume the monthly contribution of 5000 drachmae. Those who were members of the Finance Committee must resume their duties at once. They must select as assistant a released exile who has well-to-do kinsmen. Collections for EA (National Mutual Aid) must be carried out, since the Party requires funds immediately.

11. Reorganization of the KOBs: In applying previous directives for the reorganization of KOBs in Athens, the following shall be observed: All the district KOBs shall be organized in professional triads. Five triads will form an organization directed by a three-member Section Committee. The Section Committees will continue to receive instructions from the Bureaus of the KOB which will consist of a Secretary and a Second Secretary who are responsible for the extra-Party organization, an Enlightener, a security officer, and one officer responsible for the financial problems of the para-legal technical organization.
12. Lessons in the Russian Language: These lessons will begin 1 October in the building of the Hellenic-Soviet League. Only officials of the Party who are working with extra-Party organizations, will attend these lessons. These officials can shift their daily duties, if necessary, in order to attend the lessons.
13. Exiles: A fierce struggle will be waged against the measures taken by the Sophoulis-Tsalderis Government against the exiles. The collection made by IM (National Mutual Aid) for the exiles should receive full support. The 1st Achtis of KOA, which had already collected 20,000,000 drachmas, should be taken as an example.
14. "Cleaning Out" Public Employees: Before Sophoulis undertook the formation of a Government, the Liberal Party had declared that, if it ever participated in the Government, it would reimburse the suffering employees from the proceeds of the sale of properties confiscated from those members of parliament who had voted for the law providing for "Cleaning Out" public employees. This, however, has been forgotten, and the "Cleaning Out" process has become even more severe. Consequently the 2nd Achtis (Communist employees) and the employees of the IKA (State Insurance Foundation) and other government organizations will announce a strike and will resort to demonstrations until the law is repealed and the suffering public employees are reinstated and reimbursed.
15. KOA and Its Plans for Action and Retreat: Following an investigation of the internal and organizational development of Party organizations in the eparchies, the Politburo came to the following decision: If the Party is officially outlawed, and if terrorism is intensified in Athens and Piraeus, the forces of the Party and of the extra-Party organizations will remain at their posts in spite of every sacrifice. This is regarded as

indispensable in order to deprive the enemy of freedom of movement in the same areas. The Eparchies have no need of reinforcement, since the Democratic Army now holds a secure military position, and its organization has been improved. The forces of the Party in Athens and Piraeus will deal out decisive blows and will foil every movement of the enemy within those two cities. The illegal technical organization of the Central Committee will provide for the transfer of persecuted officers, particularly into Athens and from Athens. The Sectariats of KQA and KOP will annul the combined plan for retreat. The combined plan of action, however, will remain in force.
